HIALEAH GARDENS HIGH SCHOOL

Guidelines for Advanced Courses: Honors, AICE, and/or Advanced Placement Courses

Rigorous coursework not only challenges students academically but also affords more avenues for opportunities towards reaching their post-secondary aspirations. That’s why we, at Hialeah Gardens High School, support student, parent, and teacher requests and recommendations for more challenging coursework.

However, it is important that students **commit to remaining in the honors, AICE, and/or AP course(s) they have selected for the entire school year.** In addition, students must take the respective AICE or AP exam for the subject/program in which they are enrolled.

Student/Parent Request for Placement Honors, AICE and/or Advanced Placement Courses

We have read the above guidelines and are fully aware of the academic demands and commitment required for upper level courses. We request that the student listed below be allowed to register for the following honors, AICE, and/or Advanced Placement course(s). We also realize that once a student enrolls in the course(s) listed below, he/she will be expected to remain in the course(s) for the entire school year. It is also the responsibility of each potential honors, AICE, or AP student to seek prerequisite course information for summer study.
